The Annual Conference is the flagship annual educational event for the thoracic oncology professional community that updates attendees on the state of the art management of thoracic malignancies, increases understanding on the nature of clinical practice and research and facilitates networking for the development of new national and international clinical research studies.

The Vision of BTOG is to ensure equitable access to optimal care for patients with all thoracic malignancies in the UK and Ireland. The Mission of BTOG is to support and educate health care professionals, creating a professional community to exchange ideas, information and innovation and to foster the development of research. The overall aim is to represent the needs of patients and improve their outcomes.
