

The following table provides a brief outline of the work we plan to undertake.

The projects are at various stages, but we hope it is useful for you to see the resources we are aiming to provide.

Area	Activity
Air Travel	Clinical Statement in development
Long term macrolide use	Guideline in development
MDRTB	Updated eLearning module due in Spring 2018
Paediatric pneumonia	BTS Quality Improvement Toolkit in preparation
Pleural disease	Guideline in development
Pulmonary embolism	Quality Standard in development
Sarcoidosis	Clinical Statement in development
Sleep disordered breathing in children	Guideline in development
Smoking Cessation	BTS National Audit will run in summer 2019
